

Flat CFDK 25 capacitive sensor with versatile mounting options

- Versatile mounting options
- Space-saving installation
- Snap-in/snap-out without tools

Snap-in without tools

- Removable containers can be replaced while the sensor stays on the machine
- The sensor can comfortably be added after an easy subassembly of the frame

1 Fix the frame

2 snap in the sensor and ready!

CFDK 25 – Space-saving plug-and-play solution

The sensor with only 6 mm installation height is suitable for all applications where space is a critical factor.

Mounted directly onto tanks, it detects fill levels of liquids. Countersunk flush beneath a conveyor band it can detect objects on it.

Various fixed sensing distances of 2 to 15 mm turn the CFDK 25 into a plug-and-play solution.

Versatile mounting options...

on a standpipe with cable ties

on a tank with Velcro fastener or glued

cascaded and screwed onto the wall behind a tank

screwed in place flush beneath a conveyor belt

Product overview

Product code	Sensing distance	Mounting type	Designed for
CFDK 25G1125/LN1	2 mm	Shielded	Film-forming liquids with high dielectric constant
CFDK 25G1125/LN3	4 mm	Shielded	Hydrous liquids and media with low dielectric constant
CFDK 25G1125/LN5	12 mm	Shielded	Object detection under very confined installation conditions
CFDK 25G1125/LN6	15 mm	Unshielded	Detection of imprecisely positioned objects
HC25-1 Assembly frame			Fixation, quick (dis-)assembly

Technical data

Housing material	PA12
Operating temperature	-25 ... +75 °C
Connection types	PVC cable / M8 flylead connector
Protection class	IP 65

Dimensional drawing

Sensor

Assembly frame
